

Fiber characteristics

Fiber composition in mass percent in temperature-controlled condition

Material	Quantity
Cellulose	> 61 %
Active substance permethrin	<10 %
Paraffin	< 16 %
Minerals	< 10 %

Textile - physical fiber characteristics

Characteristic	Unit	Value
Fineness	dtex	2.2 - 6.6
Tenacity	cN	17 - 25
Elongation dry	%	10 - 15
Staple length	mm	38 and 60

Stability in several wash cycles
